Data flow diagrams and user stories

1.Data flow diagrams

Basic data flow

2.User stories

User	User Story
Employee	I want to submit an IT purchase request so that I can obtain required equipment.
Manager	I want to approve or reject requests so that purchases can be controlled.
Procurement Staff	I want to compare vendor quotations so that purchasing can be managed efficiently.
Vendor	I want to submit quotations so that my products can be considered.
Admin	I want to manage users and procurement records so that the system remains organized.
Management	I want to view procurement reports so that I can monitor spending.
